

MuChuan (Michael) Hung

洪睦筌

Frontend Engineer · Taipei, Taiwan

mu.chuan.hung@gmail.com

● SUMMARY

Frontend engineer with 3–4 years of experience focused on React, Next.js and React Native. Hands-on across CSR / SSR architecture, design-to-code implementation, API integration and CI/CD automation. Trained in 3D animation and visual effects at Vancouver Film School, with a strong eye for interface detail and user experience, and actively bringing AI tooling (MCP, LLMs) into the development workflow.

● EXPERIENCE

Frontend Engineer | FunRaise 方睿科技 | Taipei Oct 2026 — Present

Frontend Engineer | Cian Siang International 千享國際 | Taipei Feb 2025 — Sep 2026

- Built multiple React + Next.js products, choosing CSR / SSR per use case to improve load performance, SEO, user experience and conversion.
- Integrated RESTful APIs with robust error handling; independently implemented UI designs and interactions.
- Developed cross-page data prefetching, dynamic routing and lazy loading, collaborating closely with backend engineers and designers.
- Accelerated design-to-code delivery by pairing Figma MCP with the IDE, shortening product release cycles.

Software Engineer | SYSTEX Corporation 精誠資訊 | Taipei Jul 2022 — Jan 2025

- Rebuilt a security platform (Django + JavaScript) as a decoupled React frontend using ES6+ and shared components, reducing future development cost.
- Migrated the web product to a React Native app with Redux / Context state management and biometric sign-in; shipped through TestFlight to the App Store.
- Assessed legacy code and proposed refactoring strategies and designs.
- Managed projects on GitHub and automated deployment with GitHub Actions CI/CD and Docker, adding test scripts and SonarQube static analysis.

Web Designer | MegaMount 百岳國際 | Taipei Feb 2022 — May 2022

- Integrated APIs in Vue and built responsive layouts with Bootstrap following BEM conventions.
- Maintained existing projects and JS components; practiced GitHub collaboration and conflict resolution in a PHP MVC environment.

3D Artist | The Monk Studio | Thailand Jun 2019 — May 2022

- Lighting and compositing in Nuke and Katana.
- Created 3D environment assets and edited video in After Effects.

● PROJECTS

Velorder AI (RouteCaste) | Personal side project strava-sync-alpha.vercel.app

- Combines Strava activity data with Central Weather Administration and traffic data to alert riders and runners to hazardous weather or road changes and suggest routes.
- Next.js 16 (App Router) + React 19 in a Turborepo monorepo with pnpm workspaces.
- Tailwind CSS 4, Radix UI, Framer Motion, Recharts, React Hook Form + Zod.
- Firebase Auth / Firestore; Inngest scheduled background jobs (hourly Strava sync, route generation).

- Led specification, visual direction and delivery; built the in-page “Weather Assistant” UI.
- City-level weather lookup; the assistant answers questions using current conditions as context; Discord alerts when rain probability $\geq 60\%$.

● SKILLS

Frontend HTML5, CSS / SCSS, JavaScript (ES6+), TypeScript, React, Next.js, React Native, Redux, Vue, Tailwind CSS, Bootstrap

Backend Node.js, Express, MongoDB, Firebase

Tooling Git / GitHub, GitHub Actions, Docker, SonarQube, Figma (MCP)

Design Photoshop, Illustrator, After Effects, Nuke, Katana

● EDUCATION

Vancouver Film School, Canada Apr 2017 — Apr 2019

3D Animation & Visual Effects

● LANGUAGES

Mandarin (native), English (fluent), Taiwanese (intermediate), Japanese (basic)

● CERTIFICATIONS

AI Application Planner (Associate) — iPAS, Ministry of Economic Affairs

TOEIC 675 TOEFL 85
